OF ITS

TO THE PUBLIC!

We desire to notify the public at large and members of organized labor that the differences which existed between the Castelberg National Jewelry Co. of this city and our organization (Retail Clerks' Union, No. 262) have been amicably adjusted.

Under the conditions of the agreement entered into between the Castelberg National Jewelry Co. and representatives of our organiza= tion this firm will close their store at six o'clock during the week (Saturday excepted) and at nine o'clock on Saturday night.

We take pleasure in notifying our friends that the Castelberg National Jewelry Co. is now a strictly union house, closing at union hours, and having in their employ only members in good standing in Retail Clerks' Union, No. 262, of this city, and we heartily recommend them to your patronage.

> The Function Preceded by a Street Parade-Speeches by Prominent

Gen. George M. Cole, commander of the Corps of Connecticut, Spanish War Veterans, adjutant general of that state, and late lieutenant colonel of the 4th Immunes, was tendered a reception last night by the District of Columbia Corps, Spanish War Veterans, and many members of General Cole's old regiment (the Cured in half an hour by Immunes), at headquarters, 612 E street northwest. The affair took the form of a street parade, smoker and camp fire, and the reception by the guest of his comrades of the war with Spain. Remarks were made by veterans of the both the Union and confederate armies in the civil war, and by the younger veterans of the

Disclaims Asking for Preference.

"After careful consideration of this matter the honorable Secretary of the Interior has directed that the above so-called Browning ruling, be abrogated, which has accordingly been done.

"In a discussion of this order of abrogation the honorable Secretary of the Interior directed that I inquire from Indian agents and other officials having charge of Indian children, whose interests may be involved in this change of policy, frequent and full reports of all facts concerning any children affected thereby, upon which this office would report its conclusions to the department. You will be careful to see that this order is obeyed in every case. "We do not want preference over the asked for such," he said, "but next after this order is obeyed in every case.

Colonel Pipes paid a high tribute to Lieu-tenant General Miles, and said he "is the grandest, bravest soldier of this age." This alled forth repeated volleys of cheers from

the assemblage. Capt. William F. Annie Tolson, a colored girl sixteen years

old, was arrested this forenoon by Officers

Reagan and Osterman of the Anacostia station on suspicion of stealing a valuable plain gold ring from the residence of Mrs. Helen Douglass at Cedar Hill, Anacostia. Mrs. Douglass reported the theft to Sergeant Anderson at the station house this morning. The ring was, she said, a gift to her deceased husband, Frederick Douglass, and she would not part with it at any price on account of its associations. The officers found the girl at her place of employment, on Cedar Hill. When questioned, it is alleged, she stated that while sweeping in an upstairs room she had picked up the ring from the floor and had put it on her finger, not intending to steal it. She had carried it home unknowningly, she said, and had later given it to Frank Green, her stepfather, who lives on the Bowen road. It was a big brass ring, she said, and he had worn it to keep the cramp out of his fingers. Subsequently he lost it while at work in the sewers, she added. The officers are searching for Green to interview him, and have hopes of recovering the jewelry. and she would not part with it at any

Chiefs from some of the European cities are expected to attend the Louisville gathering, which promises to be the most notable assemblage of police officials ever held in this country.

Benevolent Generosity. To the Editor of The Evening Star:

In this time of marvelous general prosperity, and generous, even munificent, giving-especially on the part of large corporations, railroad and insurance companies, banks and manufacturers, to their faithful, hard-working employes-would it not be well if some of this generosity also reached this city of Washington? There are sporadic cases of this here already, it is true, and it is of course generally known just which are the great, exceptionally prosper-ous and safe business institutions that do this, but surely it should be general and

marked here as elsewhere.

Washington certainly has greatly prospered this past year, and our houses and dear ones have in every way been gladdened by this wonderful prosperity, even down to the servants of our households. But this is not altogether disinterested benevolence; much of it is really to ourselves, for our own personal interests. Let our generosity also extend beyond ourselves and our own homes; let it also go out to all who are under the library of the state o der us; all who are concerned with us in our business relations, our subordinates, many of whom sadly crave and need this practical, cheering reward and appreciation, this real "Well done, thou good and faithful servant," and who assuredly will render even higher, better service because of it in the future. Let it be remembered at this auspicious beginning of a new year that there are many of these heartsick and sore with "hope deferred," looking for that well-earned increase and promotion that, however, does not fully come. The wise Carnegie has of late learned that the greatest happiness as well as enduring fame lies in making others happy and contented. It is indeed true—true as gospel—it is gospel doctrine—the Christ hath so declared it—and so also the world's greatest poet and truest philosopher. truest philosopher, when he wrote of the greatest, most generous gift of all the ages, "It is twice blessed: It blesses him that gives and him that

It is an attribute to God himself!"

Institution or University, or Both? To the Editor of The Evening Star:

The incorporation of the "Carnegie Institution" raises the question in my mind, and, no doubt, in other minds as well. whether this movement means the abandonment of our long-cherished ideal, a university to be established as a suitable memorial to the illustrious founder of the republic. The filing of articles of incorporation discloses an important fact, however, namely, that the contemplated establishment is not to be a university at all. If Mr. Carnegie had any intention to found a real university he would most assuredly not call it an "institution." I take it, therefore, that the present move on this interesting chessboard is not designed to supplant or sidetrack the projected uni-versity which is designed to serve as a memorial to Washington. The letter in The Star of the 6th instant

The letter in The Star of the 6th instant from W. D. Burbage seemed to be most timely and opportune. The plan outlined in Mr. W. C. Pennywitt's memorial to Congress ought to receive careful consideration at the hands of the people who are interested in higher education. That paper treats the university proposition from a strictly American point of view, and at the same time with a humanitarian centric. the same time with a humanitarian senti-ment as broad as the world. It would be no easy thing to find anywhere in all literature a better expression of the Christian spirit than is found in the following para-

graph taken from that memorial:
"Thus the vast benefits following from our great, central institution of learning will be carried directly to the very homes and hearthstones of our people. And not to our people only, but to the wide world also. We could not, if we would, keep all the good to ourselves. We would not, if we could, keep our angels at home. There is often a foul taste in the mouth, coated ongue, and if the interior of the stomach could be seen it would show a slimy, inflamed condition The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily, thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do and when normal digestion is secured the catarrhal

condition will have disappeared. According to Dr. Harlanson, the safest and bes treatment is to use after each meal a tablet, composed of Diastase, Aseptic Pepsin, a little Nur, Golden Seal and fruit acids. These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets, and not being a patent medicine can be used with perfect safety and assurance that healthy appetite and thorough digesion will follow their regular use after meals.

Mr. N. J. Boober, Chicago, Ill., writes: "Catarri is a local condition, resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the poisonous discharge therefrom passing backward into the throat reaches the stomach, thus producing catarrh of the stomach. Medical authorities prescribed for me for three years for catarrh of stomach without cure, but today I am the happiest of men after using only one box of Stuart's Dyspepsia Tablets. I cannot find appropriate words to express my good feeling. I have found flesh, appetite and sound est from their use.

There is not probably an intelligent man voman or child in the country who would lay a straw in the way of the "Carnegie Institution," and it is to be devoutly hoped that among the many professors and uni-versity presidents who are interested in Mr. Carnegie's establishment there not be one selfish enough to lift his hand to hinder or his voice to discourage the cause of the Washington Memorial University. Even though the "Carnegie Institution" be an assured fact, let no one imagine that the whole field has been thereby occupied. Until a magnificent university, a true university, shall be erected upon the broadest possible foundation in substantial accordance with the plan outlined in the memorial referred to there will ever remain a void in the educational system of this great nation. We Americans have thus far pursued the true policy; we began at the bottom and have built on a sure foundation.

That foundation is popular education—the There is no reason why we should stor building upwards, no reason why we should leave our structure unfinished. On the contrary, we should, because of our having the surest foundation, confidently build higher than other nations have ever dared
